I'm a senior official in the Trump Administration. I have more information to dump regarding the Epstein files.

For those of you who didn't see my previous threads, yes Trump is a pedophile. Yes, Epstein worked for Mossad and was blackmailing many prominent American business elites, celebrities and politicians including Trump.

What I wanted to share is that of course as you know, many of the pedophiles who abused children with Epstein were Jews themselves, and I wanted to share to you why that is.

Many of the Jewish elites who abused children, including people like Alan Dershowitz, Les Wexner, Leon Black, members of the Rothschild family, Epstein himself and many others mostly abused only white, caucasian girls and boys.

The motive for this was ethnic hatred. Many of these Jewish pedophiles refused to abuse children who were Jewish. They only targeted white, caucasian victims. In the reports I have read connected with Epstein files, many of these victims reported being severely racially denigration and abused by these Jewish perpetrators.

Notably too, Oprah Winfrey, who by the way, is a lesbian. Would only abuse white girls, and a big part of her abuse was racially motivated. Anti white racism and hatred of whites permeates much of the ruling class. It is a particular motivator of Jewish elites. Of course, this is not a secret to many of you, but I feel I need to confirm this for those who may doubt these claims.

Of course, for non Jewish pedophiles like Trump, Bill Clinton and others, there are other disgusting motives that made them commit their crimes. For Trump, incestual fantasies, particularly those about his daughter Ivanka, played a big role in his involvement with Epstein.

>>511212634 Things could get very bad. Trump has struck a deal with Ghislaine Maxwell to give a testimony on what happened with Epstein.

The testimony she will give will be completely phoney. She has been coached on what responses to give. The entire thing will be played down. She will deny Mossad involvement. She will deny Trump's involvement, Clinton's involvement and the involvement of many other prominent people.

She will essentially make out the underage girls were all either 16 or 17, and the only people who slept with them were a bunch of Hollywood B list nobodies who didn't know the ages of the girls. All of this is total nonsense.

But Trump has given the greenlight on a terrifying back up plan in case the public does not believe a word of Ghislaine's testimony.

Trump has given the greenlight on a plan called the "Kill Switch" which is essentially a global cyber attack which will take out power grids, internet and communications around the globe. This plan is closely modelled on a simulation conducted by the WEF in 2020.

Trump and news media around the world will blame Russia and China for this cyber attack. But they have absolutely nothing to do with it. This is a joint US/ Israeli operation.

Things could get really really bad.

Have you heard of any prospective timeline when Trump might pull the "Switch" if Ghislaine's testimony doesn't fly? Her deposition is on August 11th and I'm assuming they're going to release it to the press within a couple days after that.

And, I'm letting you know now that even on conservative websites, the 'oldfags' are already highly skeptical.

If there is too much public outrage over the Ghislaine testimony that cannot be ignored or quashed, and every other method of distraction has been exhausted, the Kill Switch plan will be ready to be deployed.

The plan really is to make Trump out to be the hero. Global communications and power grids will go down. There will be chaos, and then Trump will threaten severe action against Russia and China, at which point, those

response for the cyber attack will get internet, communications and power grids back online, and the media will celebrate Trump as a hero. This in a very simple nutshell is what they are planning.

Victims has managed to get information to the lower levels of law enforcement. Previously, these complaints from victims would be nullified by those higher up in the food chain in the FBI and law enforcement. But it became too numerous and drew attention from investigative journalists who were getting information on Epstein.

Knowledge of his crimes were getting too mainstream, and Mossad and the CIA wanted to pull the plug on Epstein's operations. There was growing concerns that if the plug wasn't pulled on him, that eventually the public would get to know Epstein's connections with Israeli intelligence, and the whole house of cards would come crashing down on the elites.

They tried their very best to make everything as low profile as possible. Epstein was given a sweetheart deal initially. They didn't want him going to prison, otherwise the prospect of spending time in prison might have motivated him to blab about exactly how deep his operation was.

They allowed him to be placed under house arrest, and he was even allowed to leave his home, as he had an ankle monitor placed on him.

He essentially was prosecuted but not punished. This kept him happy, and ensured his silence on who was involved for many years.

My dad took me to an epstein party in the 90s. While they had some fun railing girls and boys the jews wouldn't touch me because my dad was one of their best friends. My dad didnt even know it was an epstein party we just hung out in the maine area eating and drinking. I did notice they would disapear with a girl or a boy to a back room this happend all evening.

if you dont know about the occult shit behind it all like leavitt not wearing a cross or zelensky giving the pope the blacked out jesus icon/painting or that trump is chabads moschiach ben david selected since birth as he was born on crowley's blood moon then youre not a very good or well-informed glowie let alone in the trump admin. also doing your kill switch plan would just lead to white right wing death squads organizing and killing blacks/low level jews then working upwards to high level jews/glowies etc., maybe you can switch it back on like u say but

>>511221505 Well, it's a lot more complicated than that. There has already been a lot of pushback from a sizeable portion of Trump's base over the Epstein stuff.

All of the internal polling indicates a cratering in support for Trump, especially amongst Republican voters. A lot of the base are abandoning him over the Epstein saga. Many in the Republican Party are very concerned about the mid terms. If they continue to do nothing about the Epstein files, Trump's base will probably stay at home for the mid terms. This is obviously something Trump and the Republican party as a whole do not want.

They have to satiate the base somehow. But they obviously can't just release the Epstein files because it will implicate Trump and many others. So there's a fine needle they have to thread here. They want to throw the base a bone and then sweep this whole thing under the rug. However, that is proving something difficult to do.

>>511221970 You should realize the Obama coup story is just a distraction. Obama won't get arrested.

That doesn't mean that Obama didn't play a part in pushing the Trump/ Russia collusion narrative, or didn't try prevent Trump from becoming President. He did. However, politicians pull dirty, illegal tricks like this all the time. This is just run of the mill stuff for Washington DC. Trump had this information about Obama during his first term and had verifiable information that Obama spied on his campaign, and Trump chose not to take action against Obama on this.

Trump is making statements about having Obama arrested as a distraction. It's extremely difficult to get a former President arrested. All it is, is just more dramatic Washington DC political theatre that runs into a dead end.

Just like all the rhetoric during Covid that Dr Fauci was going to be arrested, it didn't happen. It should have happened because Fauci is a criminal. But it didn't happen. It's just empty rhetoric to satiate the base.

Anonymous ID:JmBUeG1d Thu 24 Jul 2025 09:13:40 No.511226992 Report

>>511226568 Yes, pretty much. If the public buys into Ghislaine's testimony and they successfully sweep this thing under the rug, then yes, the worst that will happen is that some B list Hollywood nobodies will be outed as having sex with underage girls.

Even then, it's not like they'll face any real punishment. They'll have an easy defence, because Ghislaine won't mention that many of the trafficked girls were prepubescent. She will only make mention of girls aged 16 or older. The B list celebrities who will be outed will say they were drunk or they didn't know the girls were underage. They'll basically walk away with a slap on the wrist at worst.

The entire thing will be downplayed.

Insider or not, this is exactly what I have deduced as well. Trumps biggest weakness is that he tries to play both sides while maintaining a "good" public image. You can see him visibly losing it over the Epstein Saga

We know about Epstein being the tip of the iceberg, anyone who has done well enough research knows the Bloodlines ran by Sabbatean Frankist just love to harm children (in ways so horrible, I wont describe) as part of their sick beliefs.

Epstein if looked into, would shatter the publics trust in banks, governments, intelligence angencies, etc and all the power brokers name would be outed as more people begin to do the research.

They can't hide forver, God sees all.

Trump is supporting a non-white serial rapist of white children.

Epstein is connected to Israel, this is why Trump is covering it up. He doesn't want to risk the political fallout for Israel when people realize all of Epstein's clients were blackmailed and used as Israeli assets (including Trump himself).

"The most concrete link is his relationship with former Israeli Prime Minister Ehud Barak. Epstein and Barak met

numerous times between 2013 and 2017, with Barak visiting Epstein's properties in Florida and New York approximately 30 times, including a 2014 private flight in Florida. Barak received $2.3 million from an Epstein-associated foundation between 2004 and 2006, and Epstein invested $1 million in a limited partnership established by Barak in 2015.

Another connection stems from Epstein's ties to Ghislaine Maxwell, whose father, Robert Maxwell, was a British media mogul alleged to have had links to the Israeli intelligence agency Mossad. Some sources, including former Israeli intelligence officer Ari Ben-Menashe, have claimed Epstein and Ghislaine Maxwell ran a "honey-trap" operation for Mossad to blackmail influential figures. A lawsuit by a woman identified as Jane Doe 200 alleged Epstein boasted of being a Mossad agent.

Epstein was also associated with the Wexner Foundation, which supports Jewish leadership and has ties to Israel. His financial backer, Leslie Wexner, was a member of the "Mega Group," a collection of Jewish philanthropists, which some, like former NSA counterspy John Schindler, have speculated was linked to Israeli intelligence operations. Epstein reportedly invested in an Israeli startup, Reporty Homeland Security (later rebranded as Carbyne), connected to Israel's defense industry, further fueling speculation."

Epstein is a jew who raped white girls and got other guys to rape white girls so he could blackmail them and use them as Israeli assets.
